

Summer in Sussex (Physics)

Nydia Dominguez

Program Information

Eligibility:

2.5GPA

This option requires two sequential courses of single-variable calculus. A minimum grade of C is required.

Program is late June to Mid August

Two courses for a total of 12 quarter units (Intro Physics 1&2)

UCSD Credit

Students who complete course Introductory Physics 1 (IS128) & 2 (IS29) (Sussex) will be eligible for equivalency as PHYS 1A, 1AL, 1B, 1BL, 1C and 1CL here at UC San Diego **through Summer 2023.**

No petition required; equivalencies should be visible on the student's degree audit once EAP grades have been posted to the student's Academic History Report).

Students are expected to have MATH 10A/20A and MATH 10B/20B complete prior to enrolling in these EAP courses.

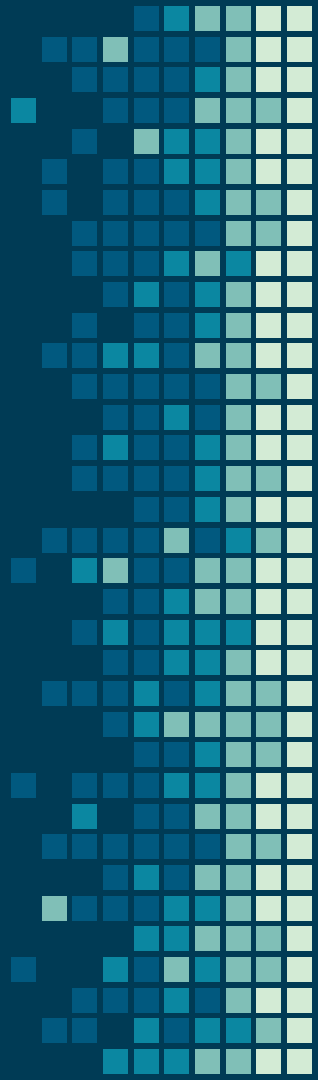

*Sussex is the only location
available for UCSD
students to complete this
physics series*

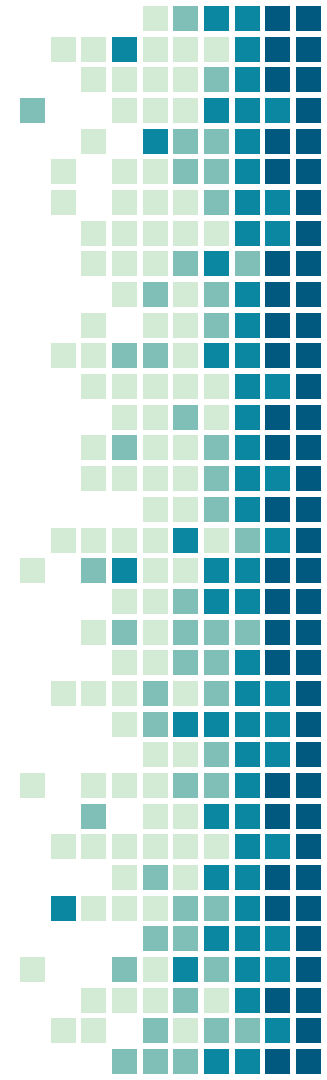

Consider this:

Students going on this program are focused on completing the physics series. This is a very rigorous program and travel is not common.

Application Process

- Academic Planning Form
- Submit on both portals
- Check deadlines
