Completing your EAP Health Clearance Form with UCSD Student Health Services (SHS)

Note: If you are going on an EAP program to Botswana, Ghana, India, Solomon Islands, or South Africa, you must complete your EAP Health Clearance at SHS unless you are currently not on campus. Please contact Student Health Services for specific instructions.

Students with SHIP Insurance: Cost of travel visits and health clearances are not covered under SHIP insurance. However, costs of required vaccines ARE covered with SHIP.

Students with RAFT Insurance: The costs for travel visits and health clearances AND vaccines are NOT covered with RAFT.

Students with Private Health Insurance: If you would like to complete your EAP Health Clearance at SHS, be sure to check with your insurance provider to confirm if services are reimbursable.

1. Obtain your immunization records from your parents, doctor or high school ASAP. Either fax your records to 858-534-1910, drop them off at Student Health Services, or upload them into your medical records. These will be reviewed during your health clearance visit at which time you can receive required immunizations or TB skin tests. To upload your immunization records, you will first need to activate your online health portal (using your Student AD) in My Student Chart https://mystudentchart.ucsd.edu/shs/. Go to the Medical Records tab and follow the instructions for how to directly upload your immunization records into your medical record.

2. Visit Student Health Services online and select your country from the list for complete instructions: https://studenthealth.ucsd.edu/services/travel-clinic/eap/index.html

   Depending on requirements, charges can vary, plus the cost of immunizations, if required. For costs, please visit: https://wellness.ucsd.edu/studenthealth/services/cost/Pages/default.aspx

   Appointments are limited by the end of the quarter and some immunizations require a series given over multiple weeks, so make your appointments early. Depending on your study abroad destination, on-line, video visits, as well as in-person visits are all available through Student Health. Please call Student Health for information about the type of appointment required for your health clearance.

3. Submit your form to UCEAP via email OR eFax:
   Submit completed form by either eFax or email by the deadline stipulated in the UCEAP portal.

   eFax: (805) 893-3021 This is a secure, HIPAA-compliant eFax portal.

   Email: healthclearance@uceap.universityofcalifornia.edu

   NOTE: Using non-encrypted email to send your completed health clearance is not private or secure. Also there is the possibility that your email could be intercepted and read by others whom you did not intend to receive it.

4. Keep a copy of the Confidential Health History Form and be sure to take it with you when you go abroad. You will have the only copy of this form at the program site should you need medical attention. DO NOT send this to UCEAP.

   Students with Disabilities: If you have any physical impairment, learning disability or other condition, for which you will be seeking accommodation abroad, you may have your campus Disabled Students Office send a memo to the University of California Education Abroad Program indicating the condition and your needs. Universities abroad will require this memo before special arrangements — i.e. granting extra time for tests, arranging for special facilities or assistance — can be considered.
