COURSE DESCRIPTION

To be successful in today’s complex and changing business environment, students need a broad understanding of organizations and the challenges and opportunities facing today’s leaders and managers. Dublin – Ireland’s Silicon Valley and Formidable Competitor in the Global War for Talent was inspired by the chance to examine one of Europe’s early identified tech hubs, and discover how Dublin continues to respond to the many challenges and opportunities of doing business in the 21st century.

Dublin is a regional financial and economic center known for its ability to attract and retain talent for tech giants such as Google, Facebook, Twitter, Amazon, and many others. Dublin is also home to an energetic startup sector with one startup for every 1,000 in population. The global war for talent is a highly competitive race and Dublin is a strong competitor.

MGT 164GS: Business and Organizational Leadership examines key themes of leadership such as strategy, power and politics, culture, and change. Other content areas focus on leadership development: communication and global mindset, networks, authenticity, and influence. The course captures what weighs in the balance for all leaders who face the challenges of today’s business environment, while at the same time are inspired by extraordinary opportunity. The Global Seminar version of MGT 164 covers important concepts and connections to relevant and practical challenges facing Dublin’s leaders and concludes with a week-long visit to London – the behemoth and highly diverse global business capital. Dublin has forever been in the shadow of London, but as it continues to rise as an important center for business, what can students learn from both great cities?

Business and Organizational Leadership combines both theoretical and practical approaches to understanding organizations and is designed to prepare students for effectiveness in future career positions. Students will work independently, in pairs and in small groups with a focus on critical reading, thinking, writing, and discussion. Course readings inspire in-depth thinking and future behavior.

REQUIRED READING

UCSD faculty are required to follow copyright laws, and so with the help of Cognella (publisher), we compile copy written materials in a convenient book-form for student use. The Course Reader for MGT 164GS contains all required readings for which students must pay permissions.

Student success depends on completion of the readings on a weekly basis, so please ensure access either by purchase of a hard copy, e-book, or a used copy from a very recent section of the course. If you choose to order a new copy or e-reader, go to https://store.cognella.com/ and follow the instructions found in the announcements on CANVAS. Your dollars go to the copyright holders (e.g., Harvard Business School Publishing, MIT Sloan Publishing, etc.), and Cognella, Inc. (a private entity founded in 1992 by a UCSD alum).

i>Clicker

i>Clicker is a classroom response system that promotes student engagement and enhances classroom interaction. Students will use a remote device (must purchase in advance) to participate in RR Points and feedback opportunities embedded in classroom discussion and exercises. The i>Clicker polling system is particularly effective when anonymous input will promote more robust discussion. You will need your i>Clicker for every class meeting as no paper copies will be accepted.

CANVAS

I rely on the course website to communicate with students, so plan to check it daily. I use the announcement function regularly and students are responsible to stay up to date with all information.

We will also organize a GroupMe, What's App (or similar) account for easy text communication.
